

Ramiro Ernesto Molina Acosta

Full Stack Software Developer

Sincelejo, Colombia | [+57 3108452615](tel:+573108452615) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Software Developer with hands-on experience building scalable web, mobile, and cloud-based applications. Proficient in React, ASP.NET, and SQL/NoSQL databases, with working knowledge of AWS cloud services. Experienced in end-to-end project delivery — from requirements gathering and architecture design to deployment on VPS and cloud environments. Passionate about clean code, continuous learning, and delivering value to clients and teams.

TECHNICAL SKILLS

Languages:	JavaScript, Python, Kotlin, SQL, C#
Frontend:	React, HTML5, CSS3, Node.js, JavaScript Frameworks
Backend:	ASP.NET, Entity Framework, REST APIs
Mobile Development:	.NET MAUI (cross-platform), Android Studio with Kotlin
Databases:	SQL Server, MySQL (relational) MongoDB, Firebase (NoSQL)
Cloud & DevOps:	AWS (EC2, S3, RDS, Lambda), Docker, VPS, Cloudflare, Vercel, Netlify, Git, GitHub
Data Science & ML:	Python — pandas, scikit-learn, NumPy Data analysis, classification & regression models
Methodologies:	OOP, Agile/Iterative, Incremental, Waterfall

PROFESSIONAL EXPERIENCE

Freelance Software Developer

2025 – Present

Self-Employed | Remote

- Designed and developed full stack web applications using React (frontend) and ASP.NET (backend) with REST API integration
- Architected and managed relational databases (SQL Server, MySQL) and NoSQL databases (MongoDB, Firebase)
- Built and deployed cross-platform mobile applications using .NET MAUI and native Android apps with Kotlin
- Utilized AWS services (EC2, S3, RDS) for cloud hosting, storage, and database management
- Deployed and maintained applications on VPS environments, ensuring uptime and performance
- Led direct client communication, requirements gathering, and end-to-end project management
- Optimized application performance, resolved bugs, and delivered ongoing maintenance

Key Projects (2026):

- **Artist Official Website:** Developed the official website for a internationally recognized music artist, including a multimedia portfolio, gallery, and contact system. Stack: React, ASP.NET, SQL Server.
- **University Scheduling Application:** Designed and deployed a multi-platform appointment scheduling system for a university, enabling students and staff to manage bookings. Stack: .NET MAUI, ASP.NET, SQL Server. Deployed on a VPS with AWS S3 for file storage.

FEATURED PROJECTS

Machine Learning Models with Python

Built predictive models using Python (pandas, scikit-learn). Performed data cleaning, exploratory data analysis (EDA), and trained classification and regression models.

Cross-Platform Mobile App (.NET MAUI)

Developed a cross-platform mobile application with .NET MAUI in Visual Studio, integrated with SQL Server via Entity Framework for data persistence.

Full Stack Web Application

Built a complete web system with React frontend and ASP.NET backend, featuring REST API, user authentication, and a relational database.

Native Android App with Kotlin

Developed a native Android application in Android Studio using Kotlin, consuming REST APIs and leveraging Firebase for real-time storage.

EDUCATION

B.S. in Systems Engineering

2023 – Present

Corporación Universitaria del Caribe – CECAR | Sincelejo, Colombia

High School Diploma

Graduated

Institución Educativa Antonio Lenis | Sincelejo, Colombia

LANGUAGES

- Spanish — Native
- English — C1 Advanced

CORE COMPETENCIES

- Effective team collaboration and communication
 - Clear client-facing communication and requirements analysis
- Self-driven and continuous learner
 - Results-oriented with strong problem-solving skills
